

TITANSUPER

BREATHABLE WALL PAINT FOR INDOOR OUTDOOR

Characteristics

Breathable wall paint for interior exteriors based on fine synthetic resins in emulsion and special micronized fillers coated with wax. This makes TITANSUPER a partially water-repellent and highly breathable paint. It is a thixotropic product therefore it can also be used in high thicknesses without the risk of sagging.

TITANSUPER can be used outdoors, but not on walls directly exposed to rain washout. The product is fireproof and free from substances classified as harmful. It leaves no lapping defects.

Binder	: Synthetic copolymer in aqueous emulsion	
I wait	: Opaque	
Washability	: After 48 hours. 6000 Brush strokes	
Specific weight	: 1,660 – 1,680 kg / l	
Viscosity at 20°C.	: 14,500 - 16,000	
Surrender	: By brush : dilution with water 20% by volume - 7 m ² /l (2 coats) : dilution with <u>By roller</u> water 20% by volume - 7 m ² /l (2 coats) By spray : dilution with water 30% by volume - 10 m ² /l (1 coat)	
Color	: White.	
Drying	: to the touch	: 35
	Stackability	minutes : 6 hours

VOC classification : EU limit value for this product (Cat.A/a): 30 g/l (2010)
(Directive 2004/42/EC) : This product contains a maximum of 30 g/l of VOC
