DATA SHEET

TINTALAK® UNIVERSAL DYE

Features	: Highly concentrated universal coloring pastes, dispersed in surfactant vehicles and free from synthetic binders. TINTALAK® pastes are suitable for coloring water-based paints based on acetovinyl and acrylic binders, lime paints, water-based, solvent-based, alkyd and oleosynthetic enamels. The high concentration allows low dosages of coloring pastes, thus not altering the chemical and physical characteristics of the paints in which they are used.
Binder	: Exempt
Hazard class	: Exempt, non-flammable, VOC FREE
Pigments	: Inorganic and organic non-toxic
Specific weight	: 1,170 - 1,830 according to the type of color
Viscosity 20 ° C	: 1000 - 4000
Packs	: 0.5 / 0.125 / 0.050 liters
Terms of use	: Shake the bottle before use. It is always advisable to prepare the colors a few hours before use. The "TINTALAK®" coloring pastes can be added to the maximum extent of 6-8% to washable water-based paints and enamels. In the measure of 3 - 4% in water-based paints such as transpiring or in any case with a low binder content. In water-based paints for exteriors, it is advisable to avoid using pastes <i>Red Signal</i> And <i>Chrome Yellow</i> .
Storage	: The universal dye "TINTALAK®" must be stored protected from frost and high temperatures. In the original, well-closed packaging, the material can be kept for at least 24 months without compromising its quality.
