DATA SHEET

MURACRIL 116 EE - WHITE and BASIC colors EXTRA WATER-BASED PAINT FOR INTERIOR / EXTERIOR

Features

: High quality extra water-based wall paint for exteriors based on emulsified synthetic resins. It is extremely easy to apply by brush, roller or spray even on large surfaces. It has a great yield and strong coverage, so with just two coats it covers any color. It allows to obtain wall coverings for external facades resistant to any climate, with a remarkable decorative effect; fullness and uniformity of color. The product is non-flammable and free from toxic components.

Principles of photocatalysis (only for white color)

: In the formula, thanks to the use of titanium dioxide which, subjected to sunlight, the molecules of pollutants are transformed into substances harmless to health, and the process is also activated in the presence of artificial light.
